PROFESSIONAL SUMMARY

Detail-oriented Software Developer with hands-on experience in web and mobile application development using Laravel and Flutter. Adept at writing clean, maintainable code, optimizing user interfaces (UI), and bridging technical complexities for non-technical stakeholders. Proven capability to adapt quickly to new frameworks and contribute effectively within agile team environments to deliver high-quality digital solutions.

CORE SKILLS

Technical Skills: PHP, Laravel Framework, MySQL, Flutter, JavaScript, HTML, CSS, Web Programming, Frontend Programming, Git, Github, API, Linux System Administration.

Tools: Visual Studio Code, Docker, Ansible

Languages: Indonesian (Native), English (Intermediate)

Soft Skills: Team Communication, Team Coordination, Cross-functional Collaboration, Agile Methodology

WORK EXPERIENCE

Front End Web Developer | PT Berbinar Insightful Indonesia | May 2025 – May 2026 | Remote

- Translated UI/UX designs into fully responsive and functional web components utilizing PHP and the Laravel framework.
- Designed and optimized data-handling logic to ensure seamless frontend-backend integration with MySQL databases.
- Contributed significantly to the core corporate website development and engineered the user interface for the online psychological testing platform.

Game Developer | Solu Filantropi Teknologi | Nov 2024 – Feb 2025 | Bogor (Contract)

- Collaborated within a project team to architect and build an educational, mobile-based game application using Flutter.
- Optimized application responsiveness and performance across various mobile devices through efficient state and asset management.

EDUCATION

Vocational High School Certificate in Software Engineering | SMKN 1 CIBINONG | 2026 | Bogor

- Focused on web programming and core software development methodologies. Expanded technical expertise independently into DevOps principles, including Linux administration, containerization, and automation tools.

CERTIFICATIONS

- Automation with Ansible | Akademi Digital Nusantara (ADINUSA) | 2025 | C01003-00000-41768
- Linux System Administration | Akademi Digital Nusantara (ADINUSA) | 2024 | C01001-00000-33378
- Docker Fundamental | Akademi Digital Nusantara (ADINUSA) | 2025 | C01002-00000-36455
- Data Analytics Digital Talent Scholarship | KOMINFO | 2024 | 1949615850113/TA/BLSDM.Kominfo/2024
- Solu Game Developer | Solu Filantropi Teknologi | 2025 |

SELECTED PROJECTS

Face Recognition Attendance System | Full Stack Developer | 2026

- Engineered a school attendance system utilizing facial recognition technology to digitize and automate real-time check-ins.
- Developed robust backend logic and handled database management with Laravel to guarantee secure and rapid data verification.

Educational Game Development | Game Developer | 2025

- Developed a mobile-based interactive learning media to enhance user engagement.
- Structured the application using Flutter, successfully delivered a stable product release, and earned an official project certificate from the industry partner.

Online Pharmacy Platform | Full Stack Developer | 2026

- Engineered a web-based e-commerce platform using Laravel and Tailwind CSS to facilitate seamless online browsing and purchasing of pharmaceutical products.
- Developed secure checkout workflows, managed product inventories, and designed an intuitive, responsive user interface to enhance the overall shopping experience.
